## Reference Sheet

Although PIMSCO represents over 100+ insurance carriers, the carriers listed on this reference sheet are who our agents are most commonly using for their everyday sales, sorted by product type.

### Obamacare (ACA)

Aetna	Affordable Care Act plan prices and benefits can vary tremendously based on zip code, income and the number of applicants enrolling. The networks and formularies are most important, so when quoting, it's always best to narrow plans down by filtering them by the prospects in-network doctors, hospitals and prescriptions, then begin comparing by benefits. Enrollments can be submitted using Health Sherpa. You can access Health Sherpa from the PIMSCO agent portal at <a href="http://www.pimSCO.com">www.pimSCO.com</a> .
Ambetter	
Bright Health	
Florida Blue	
Oscar	
United Healthcare	

### Medicare Supplement

American Continental	Medicare Supplement benefits for a specific plan (Example: Plan G) are standardized by the government, which means regardless of the insurance company your client chooses, Plan G will always have the same benefits. However, premium rates are different based on zip codes. The best way to determine what plans you should represent is to email your PIMSCO Marketer the zip codes you most frequently work in so we can run some hypothetical quotes and help you narrow down the top 3 - 4 carriers to represent in those areas.
Cigna Health and Life	
Mutual of Omaha	
United American	
United Healthcare AARP	
And More...	

### Medicare Advantage/PDP

Aetna	Medicare Advantage and PDP plan benefits and networks are geographically driven by county. Depending on where your client lives, certain plans/benefits may or may not be available for a consumer to enroll in. Therefore, the best plan in one county may not be offered in any of its neighboring counties and vice versa.
BayCare	
Bright Health	The best way to determine what plans you should represent is to email your PIMSCO Marketer the counties you most frequently work in so that we can review the CMS statistics of members enrolled based on the plans available. We will help you to narrow down 3 - 4 of the top carriers to represent until we find out with your personal experience that we might need some of the other niche, regional plans. It's best to start with 3 - 4 carriers because of the lengthy certifications involved with becoming RTS (Ready-to-Sell), which are required to be completed every year.
Cigna Healthspring	
Devoted Health	
Florida Blue Medicare	
Freedom/Optimum	
Humana/CarePlus	
Mutual of Omaha	
Simply Health	
Ultimate Health	
United Healthcare	
Wellcare
